- Planning and Zoning

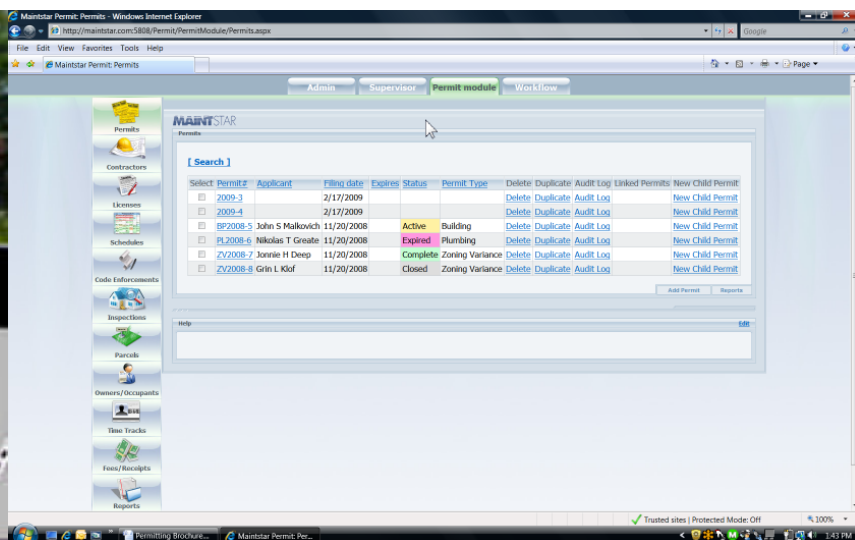

The MaintStar System

MaintStar has been a leading provider of management solutions for government since 1984. Focused on meeting real world needs, the MaintStar System has provided Federal, State, County and City Agencies with cutting-edge management tools in a user-friendly interface. MaintStar Inc. now adds Permitting, Inspection, Licensing, Code Enforcement, Planning and Zoning capabilities to our proven system making MaintStar the complete Government Enterprise Solution.

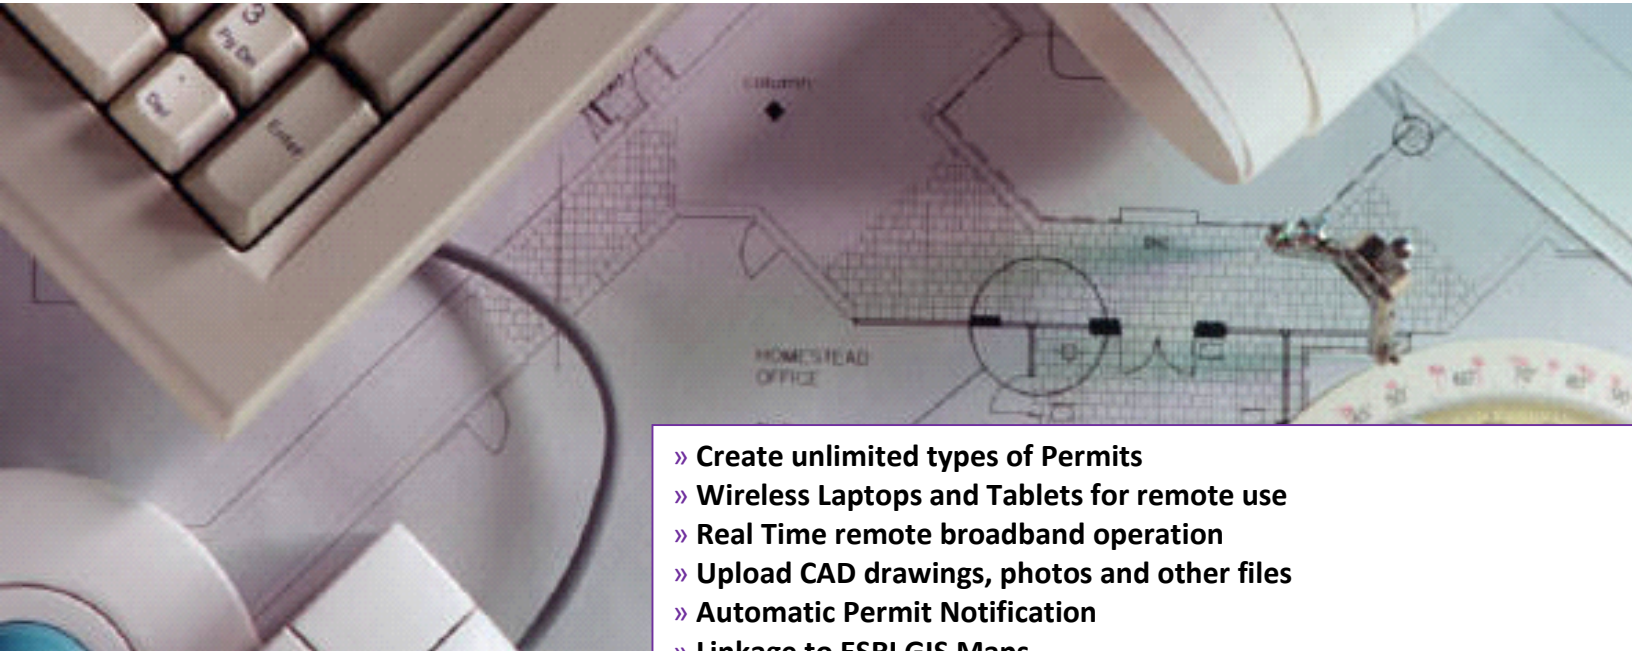

Web Based Solutions

- Permitting
- Inspections
- Licensing
- Code Enforcement
- Planning and Zoning

The system is a fully integrated parcel based solution. Automate the Permitting process with customizable user-friendly Citizen Access screens. Record Inspections on site with wireless broadband connectivity. Update records in real time. Control Licensing and Code enforcement with automatic status updates and notifications. The system is fully integrated with ESRI GIS system for map view of all activities.
